Exploratory Wheel Courses

This is a combination of classes that meet during the same period each day, but on a rotating basis. Students in grades 6, 7 and 8 are enrolled in the Exploratory Wheel classes for the school year.

Advanced Level Courses

Accelerated (English & Math) and double accelerated (Math) pathways begin in seventh grade. A student's MAP testing data plus teacher recommendation during their sixth grade year will serve as the means for students to begin the accelerated (Pre- Algebra/Advanced English in 7th grade) or double accelerated Math (Algebra in 7th grade) pathway.
